About This Game

"Why are we born of hatred? Is it from our power stemming as humans, or is it from things we don't understand?"

We are afraid of what we don't know. Simple as that. But they? They don't know. They don't know of our power, and raise their arms against us.

And for what? To shun us out of humanity? To sow discord within their own feeble hearts? To betray our faith and kill us like animals?

No.

They may mock me, they may hate me, they may scorn me, they may burn me.

But I know at the end of the day, that I am stronger than them."

- Expansive full length RPG spanning 20-25 hours.
 - Streamlined crafting system.
 - Emotionally driven characters and scenarios.
- Unique Wraith System: With every enemy you defeat, enemies of that particular type get stronger over time.
 - Hours and hours of side content and side quests.
- Use the emotional fragments of others to make yourself stronger.

-
- Unique Alliance System: Ally yourself with various partners to reap their benefits.

WARNING: A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that may cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms. These include lightheadedness, altered vision, eye or face twitching, jerking, or shaking of arms and legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **IMMEDIATELY STOP PLAYING AND CONSULT A DOCTOR IF YOU EXPERIENCE ANY OF THESE SYMPTOMS.**

The risk of photosensitive epileptic seizures may be reduced by taking the following steps:

- Play in a well lit room.
- Do not play if you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

even for eternia

If you're comparing getting a table tennis table and this get a table tennis table.. If you like hardcore platformers you will love this game. It has all the basic elements you would want, tight controls, great level design, and a cool grappling hook mechanic that opens up lots of fun level designs. It also has a cute story and well written dialogue that will make you chuckle from time to time.

The game is divided into 4 worlds, each with 7 levels, one story segment, and a boss fight at the end. Each individual level is further divided into several checkpoints, which is great, because even though you will die a lot you will never have to replay long sections of a level and there is literally always a check point after a tough segment. The bosses are standard fare, you will die a few times learning their patterns but none of them are tough once you know how to dodge their attacks.

The game took me just shy of 2 hours to beat, there are also leaderboards for time trials if you are into that sort of thing. The game has a pretty good difficulty curve, the earlier levels teach you the skills you need to pass the later levels and other than an obscenely difficult last level, the game never feels unfair.

Definitely worth a buy.. Ive had this game a LONG TIME and my best advice is for you to avoid it.

While the game does have its strong points, the developer really has no idea how a game should be built and in what steps\order things should be addressed.

New modules, weapons and gameplay elements go in virtually untested. Problems with the game from 2 years ago still plague the latest release. Block sizing does not matter...Skills randomly stop working. Cargo sizes randomly shift when you take damage and repair.

despite what people say, you CANNOT build in any shape you want. In fact, blocks are very very limited in shape and how they fit together.

The armor and shield systems are a mess in how they soak damage and there is NO information about your changes in the actual build screen...not even the most BASIC things you need to know...

The UI is a mess with elements scattered all over the place.

The keybindings are not fully listed and the zoom effects are OUT OF CONTROL....

The dev has been told all these things long ago...This is more like a hobby project that someone works on when they are bored rather than a retail product intended to make money.

By the time this games ready Star Citizen will be out.

. Nice little Puzzle-Game :) Puzzles are challenging, but not too hard.
Really liked the variation - with music, logic or you have to weigh sth, etc.

Only con - the length - but if you get it for a budget price, it's definitely worth a try!. 10/10 Dirty Diapers

Got me prepared for motherhood. Just like the real thing. CS:GO Player Profiles gives a great perspective into the lives of the best players in the world, insperational for any gamer.. A very enjoyable puzzle game.

The graphics are charming and suit it perfectly.

Puzzles are challenging but not unreasonably hard. (Currently have gold on all available levels)

A must buy for puzzle lovers, especially for the price they want.

Waiting eagerly for the upcoming levels.. So if you check the properties of Rebirth, and then go to the DLC tab, it says the Soundtrack is installed. I've searched my computer far and wide, can't find it. I see a bit above that it says November 11th, yet I've seen others say something about it being out already. Does anyone know for sure which is which? Regardless of that, from

what I've heard in game I give my recommendation for it.. Good Game worth having in your inventory. It's like Puzzle Quest but with poker instead of gems. Although there's not the same depth as the Puzzle Quest series it's still a lot of fun.

This game is awesome but the Galleon is way too op you can destroy any ship in one shot even another Galleon. 9/10, great game great atmosphere, and an amazing soundtrack.. Well, out side some minor farming of apples, which allow you to buy upgrades, there is not much wrong with the game. Even that was covered, if you put your mind set wise, just try to get the golden bonus for each level.

Music for me got very annoying but was very easy to just turn off with no issue. It is good fun, and a challenging Tug of War game, the AI is not dumb. Each mission has its own ways of being beaten and just a matter of testing the waters or making your own path. I love the Slug medics, and wide options to choose from, for this price point, yes its worth your time.

In this review I cover what you need to know, but I decided to do so in a fun manner, I hope you enjoy and check out other reviews here. <https://www.youtube.com/user/SocioPsycho>

<https://www.youtube.com/watch?v=3om46orQnT4>. This game needs quite a lot of work put into it. It has a lot of bugs, and unplayable moments. With that being said i just would like to preface that by the game is fun as hell. When the aforementioned bugs happen, they still manage to be funny. Honestly there is potential in this.. this game kinda sucks
